

## GoDaddy Support Conversation

Hi, this is our virtual assistant!

Tell us how we can help.

You at 13:02, Jan 14:

Dear GoDaddy Support Team,

I hope this message finds you well. I am interested in purchasing the domain GripOffers.com, which appears to be already registered.

Could you please assist me with the following:

1. Confirm if this domain is available for sale through your domain brokerage service.
2. Provide guidance on how I can initiate the process to negotiate and purchase the domain from the current owner.
3. Share any additional fees or steps involved in securing this domain.

I am eager to proceed as soon as possible and would appreciate your prompt response.

Thank you for your time and assistance.

I'll connect you with a member of our team who can assist with domain brokerage services and provide all the information you need.

Hi there! Thanks for contacting us:)

How may I help you with your domain-related concern?

May I know if you have a GoDaddy account?

If yes, please share the customer number of your account, please.

It shows me to buy with Broker Service. Can you tell me the process to purchase it?

Sanyam at 13:11, Jan 14:

As the domain is currently registered, we have 2 options:

1. I can help you in registration for a similar domain that is available for purchase.
2. I can help you in getting a Domain Broker Service for an already registered domain.

Please let me know with which option you want to proceed?

You at 13:12, Jan 14:

I want the same domain with .com extension. Can you suggest me the right option?

Sanyam at 13:15, Jan 14:

I suggest you get a similar domain from the below-mentioned available options for multiple years:

1. grip-offers.com
2. thegripoffers.com

And I will help you in getting the best savings deal as per the future use.

You at 13:16, Jan 14:

No, I want the same gripoffers.com.

I want this gripoffers.com.

Sanyam at 13:19, Jan 14:

We can help you in getting a Domain Broker Service for an already registered domain.

That will cost you \$119.99.

And just to clarify one thing, it is not the cost for the domain-you need to pay separately for the domain if the current owner will be ready to sell the domain to you.

And the service does not guarantee that you will get the domain for sure as that depends on the current domain owner's decision.

You at 13:21, Jan 14:

If the domain owner doesn't want to sell, what will happen to \$119.99? Will this get refunded or not?

Sanyam at 13:24, Jan 14:

That will not be refunded.

The broker will negotiate. If the domain owner is ready for sale, then it is good; if not, then that will be the cost for the broker service.

That is the reason I suggested you go for the available domain at the first step of this conversation.

You at 13:25, Jan 14:

Okay, thank you. I found a new domain that is available.

Sanyam at 13:28, Jan 14:

Sure, please let me know if you find the domain. I will help you in getting that registered.
